

DETERSILK 977

Desizing agent for silk and pre-treatment for dyeing process

CHARACTERISTICS:

Physical form:	clear liquid
Composition:	blend of ethoxylated surfactants
Ionogenicity:	non ionic
Water behaviour:	soluble
Shelf life:	at least 12 months if it is well stored.

APPLICATION:

DETERSILK 977 is a special detergent specific to eliminate oils and sizes used for silk soaking before degumming and dyeing treatments.

Has high detergent properties .

These properties help to make easier and cleaner the degumming process.

USE PERCENTAGE*: 1-2 gr/lit

Temperature	60°C
Time	15 min

DETERSILK HT

Desizing and degumming agent in high temperature conditions

DETERSILK HT has the same characteristics of **DETERSILK 977** and can be used in combination with **CIGNO-PON SLK** for degumming in high temperature conditions (128 °C).

USE PERCENTAGE : 4 g/l

Temperature	128°C
Time	40 min
