

CIGNO-PON SLK

Liquid soap for Silk degumming

CHARACTERISTICS:

Physical form:	clear yellowish liquid
Composition:	soaped fatty acids, surfactants, solvents and sequestering agents
Ionogenicity:	anionic
pH (1% in water):	9,5 – 11,5
Shelf life:	Stable for at least 12 months

PROPERTIES:

CIGNO-PON SLK is a formulated liquid soap made of a synergic mixture based on natural soaped fatty acids . In comparison to Marseille soap the new product has several improvements :

- Easy to use; being already liquid this product can be easily diluted even in cold water
- High resistance to hard waters.
- Very high emulsifying and dispersing features; it avoids the formation of “bubbles of fat” in the bath which is therefore clearer and stabilizing the sericin dispersion.
- Improvement of silk smoothness and touch.

APPLICATION:

Liquor ratio. 1:15

1. Degumming 10 gr/lit CIGNO-PON SLK T : 96 °C

0,7 – 1 gr/lit SODIUM CARBONATE

Ph 10 – Time 30 minutes

2. Washing 40 °C

3. Washing cold water

*check the loose of weight that will be about 30% (25 % sericine – 5 % soaking oil)

PACKING: 25 kgs cans 120 kgs drums 1000 Kg tanks
